3.2.1 Charges for facilities within the State of Illinois

This section contains the Illinois Bell Telephone Company portion of special construction cases providing permanent facilities in accordance with the regulations contained in American Telephone and Telegraph Company, Long Lines Department Tariff F.C.C. No. 262. Special Construction, prior to May 25, 1984. These cases are subject to the regulations specified in 2.1 through 2.8 preceding, with the exception of maximum termination liability and annual underutilization liability as follows. The maximum termination liability period for special construction cases transferred from Tariff F.C.C. No. 262. In addition, instead of underutilization liability based on costs when there is a partial discontinuance of service on specially constructed facilities, the charge for only the rate elements containing the specially constructed facilities, as contained in the appropriate service tariff, will apply during the unexpired portion of the maximum termination liability period. For purposes of determining this charge, any facilities subject to minimum period monthly charges are considered to be in service at filed tariff rates.
